

IN THE CLAIMS

Please amend the claims as follows:

Claims 1-15 (Canceled).

Claim 16 (New): A 4,4'-biphenol polysulfone composition comprising:

- as a main ingredient, at least one polysulfone comprising more than 50 mol. % of recurring units formed by reacting 4,4'-biphenol with at least one sulfone monomer SM<sub>1</sub> (B<sup>ol</sup> PSU);
- more than 0.01% by weight, based on the total weight of the composition, of at least one phosphorus-containing compound selected from the group consisting of organic phosphites and organic phosphonites; and
- at least one polysulfone comprising more than 50 mol. % of recurring units formed by reacting bisphenol A with at least one sulfone monomer SM<sub>2</sub> (B<sup>ol</sup> A PSU).

Claim 17 (New): The composition according to claim 16, wherein SM<sub>1</sub> comprises a 4,4'-dihalodiphenylsulfone.

Claim 18 (New): The composition according to claim 16, wherein the B<sup>ol</sup> PSU consists of recurring units formed by reacting 4,4'-biphenol with at least one 4,4'-dihalodiphenylsulfone.

Claim 19 (New): The composition according to claim 16, wherein SM<sub>1</sub> comprises a 4,4'-bis(4-halophenylsulfonyl)-1,1'-biphenyl.

Claim 20 (New): The composition according to claim 16, wherein the B<sup>ol</sup> PSU consists of recurring units formed by reacting 4,4'-biphenol with at least one 4,4'-bis(4-halophenylsulfonyl)-1,1'-biphenyl.

Claim 21 (New): The composition according to claim 16, which comprises at least 60 % by weight, based on the total weight of the composition, of the B<sup>ol</sup> PSU.

Claim 22 (New): The composition according to claim 16, wherein the phosphorus-containing compound consists of one or more organic phosphites.

Claim 23 (New): The composition according to claim 16, wherein the phosphorus-containing compound consists of one or more organic phosphites and one or more organic phosphonites.

Claim 24 (New): The composition according to claim 16, wherein the phosphorus-containing compound consists of tris(2,4-di-t-butyl-phenyl)phosphate.

Claim 25 (New): The composition according to claim 16, wherein the phosphorus-containing compound consists of tris(2,4-di-t-butyl-phenyl)phosphate monomer and one or more organic phosphonites.

Claim 26 (New): The composition according to claim 16, which comprises between 0.09% and 0.40% by weight, based on the total weight of the composition, of the phosphorus-containing compound.

**Claim 27 (New):** The composition according to claim 16, which comprises from 3% to 14% by weight, based on the total weight of the composition, of the B<sup>o1</sup> A PSU.

**Claim 28 (New):** The composition according to claim 16, which has a melt viscosity ratio at 410°C and at a shear rate of 50 s<sup>-1</sup> (VR<sub>40</sub>) of below 1.20.

**Claim 29 (New):** A 4,4'-biphenol polysulfone composition comprising at least 60% by weight, based on the total weight of the 4,4'-biphenol polysulfone composition, of at least one polysulfone comprising more than 50 mol. % of recurring units formed by reacting 4,4'-biphenol with at least one sulfone monomer SM<sub>1</sub> (B<sup>o1</sup> PSU), said composition having a melt viscosity ratio at 410°C and at a shear rate of 50 s<sup>-1</sup> (VR<sub>40</sub>) of below 1.20.

**Claim 30 (New):** The composition according to claim 29, wherein SM<sub>1</sub> comprises a 4,4'-dihalodiphenylsulfone.

**Claim 31 (New):** The composition according to claim 29, wherein the B<sup>o1</sup> PSU consists of recurring units formed by reacting 4,4'-biphenol with at least one 4,4'-dihalodiphenylsulfone.

**Claim 32 (New):** The composition according to claim 29, wherein SM<sub>1</sub> comprises a 4,4'-bis(4-halophenylsulfonyl)-1,1'-biphenyl.

**Claim 33 (New):** The composition according to claim 29, wherein the B<sup>o1</sup> PSU consists of recurring units formed by reacting 4,4'-biphenol with at least one 4,4'-bis(4-halophenylsulfonyl)-1,1'-biphenyl.

**Claim 34 (New): An article comprising the composition according to claim 16.**

**Claim 35 (New): The article according to claim 34, which is manufactured by an injection moulding process.**

**Claim 36 (New): An article comprising the composition according to claim 19.**

**Claim 37 (New): An article comprising the composition according to claim 29.**

**Claim 38 (New): An article comprising the composition according to claim 32.**
